# ECO FRIENDLY CLEANING

We pride ourselves in using eco friendly responsibly produced and sustainable cleaning products wherever possible. We use durable supplies such as microfiber cloths and window vacuums to prevent paper waste. We aim to reduce the impact of using single use plastics. To help with this we utilise refillable containers.

Our team are passionate about what they do. As a business we understand the importance of sustainability. We consistently review our processes and procedures to ensure we always deliver the highest standard of service to our clients in a sustainable way. Striving to use the most efficient and effective equipment and supplies on the market.
